

Member Ecosystem

CENGN is Canada's not-for-profit Centre of Excellence in Next Generation Networks. CENGN's Member Ecosystem promotes collaboration among technology innovators and adopters to drive Canadian technology innovation and industry growth. The ecosystem enhances dynamic interaction between members across industry verticals and supports CENGN's vision of advancing global technology innovation for the prosperity of all Canadians.

MEMBER BENEFITS

Governance and Community Engagement

Help shape Canada's innovation programs and strengthen CENGN's mission. Engage and collaborate with other members to grow your business.

Connect with Canada's Tech Innovators

Receive early exposure and introductions to start-ups and scale-ups developing innovative products and technology relevant to your business. Direct promising Canadian businesses to CENGN for access to our commercial grade infrastructure and subject matter expertise.

Talent Development and Resources

Build your talent pool through CENGN Academy courses offered at a discount to our ecosystem members. Gain access to highly educated and CENGN trained students to grow your team.

Marketing and Communications

Leverage CENGN as a platform for brand visibility and as a base to publish thought-leadership content. Take advantage of opportunities to speak at and/or co-host events. Gain free passes to the annual CENGN Summit plus 50% off a booth.

IS YOUR ORGANIZATION RIGHT FOR MEMBERSHIP?

The CENGN Member Ecosystem is comprised of organizations committed to driving technology advancement and growing innovation for the prosperity of all Canadians. Members are organizations that value the role CENGN has as a unifying technical voice between academia, government and the Canadian tech sector. As an ecosystem member you can help shape Canada's innovation programs and strengthen CENGN's mission. Your influence as a member creates a strong Canadian tech sector that addresses areas important to your business.

Who CENGN is

CENGN contributes to the advancement of Canada's innovation economy and technology in three main ways:

Commercialization Services

CENGN provides Canadian small and medium enterprises with network technology expertise, guidance, and access to the CENGN Testbed. The CENGN Testbed is an independent multi-vendor, multi-site, commercial grade network infrastructure, with the resources and environments required by businesses to validate their tech products and services for market readiness.

Talent Development

Through the CENGN Academy and our student program, CENGN provides training that bridges skill gaps in cloud computing and networking technologies. By arming experienced professionals, new graduates, and students with the industry's most relevant skills we are advancing the global competitiveness of the Canadian cloud and networking workforce.

Professional Services

CENGN's professional services offer industry leading containerization and virtualization expertise, testing as a service, as well as a world class production grade platform to any organization on the path to cloud native transformation.
